“Remind Me Dear Lord” New CD Has Arrived!

Can you tell we are excited ? After a year, we know you are excited as well. Some of you pre-paid for this project more than a year ago and have been so patient. I would have ask for my money back, but you all believed in us and knew we were doing all we could to make it happen. I think you're gonna be blessed. The final mix turned out very pleasing, especially with Clint's vocals added. WOW what a voice and he's with us on all but 1 or 2 songs. I do love 3 part harmony. I hope you all get just as excited as we are when you get your copy. Let us know what you think.

I love February for several reasons. It's my birthday month and it's Valentines Day month. Being old maids, we're hopelessly romantics, so we love Valentines Day. So, Happy Valentine's Day to all of you!

Thank you Barbara Moore for the precious card and money for my

birthday. That's the first time someone besides family sent me personal money and I found I liked that! LOL

PO. RICHARDSON AND JACKSBORO SW TX

I love to hang lights when we camp out. They teased me that airplanes could land safely.

I love to camp out/cook out for my BD, so Angie, Mom, Judy and I all went to Jacksboro, TX and spent the night and camped out in a little shelter. I loved it even tho the floor was hard to sleep on. It was perfect weather and the next day we took

Mom back to where she grew up close by, and enjoyed a day full of memories for her.

We so enjoyed the SouthWest Festival again this year in San Antonio. Billy and Janet are great promoters. Good to sing with Jubil-Heirs, Pure Grace, Bro. Dennis, and Robby Wright Duo.

What made that trip so good, Mom went with us because her brother Uncle Jerry lives close by. He and Aunt Karen let us stay with them, fed us, visited all hours of the night and made us feel at home. They brought Mom to the singing, so we let her sing. She got a standing ovation and we were proud of her.

Ashley Road BC was where we sang that next Sun AM.

Brent came over the next week and it was good to see him. He is officially engaged and plans to marry in July. We wish him the best.

Thank you Faithful Ones!

Vehicle update..... Good and Bad News

Well our little 1995 car is still chugging along. We leave for Florida next week so we plan to put it in the shop tomorrow to get it fixed before we leave.

We found a local man who can fix the "low riding" in the back for less than \$100.00 he thinks. That's great news compared to the \$2800 estimate of 3 others.

Bad news is, the last coil is going out and the car dies in the middle of the road, which requires me to put it in neutral to re-start it. That's requiring some extra work for our Angels!

Also, I feel almost certain the 1st and 2nd gear is now going out. He fixed all the rest of them for \$2600.00. Remember? They are

doing fine. But the 2 older gears are jealous and want to be fixed too. When I brake, it jumps out of gear and takes off again. The people ahead of me don't think it's funny!

We are praying for a bigger vehicle as you all know and have located an RV for less than \$20,000. We are just believing and leaving it in God's capable hands. He is well aware of our problem and if we break down, He is able to keep us safe. We covet your prayers as we fast and pray this month.

God is ABLE!
